

Homework/Grading

Since your child is in second grade, he or she will now have homework on a nightly basis. Please make sure that your child's homework is completed and returned in a timely manner. Homework should always be returned to school the day after it was given, unless I am notified of extenuating circumstances which interfered with your child's ability to complete the work. If your child missed several questions on the homework, he or she will be required to redo the homework. I will not take grades on nightly homework; rather, the system will work as follows.

Weekly homework completed and returned on time=15 points
For each missing/incomplete assignment at the end of the week, one point will be deducted from the total points earned.

Also, please remember that reading is an essential part of second grade. Having your child read 10-15 minutes every night would be extremely beneficial to his or her development as a fluent reader.

Grading

I will take a grade on these activities:

- Tests
- Quizzes

Students will also receive points for homework, journals, and participation in class activities.
